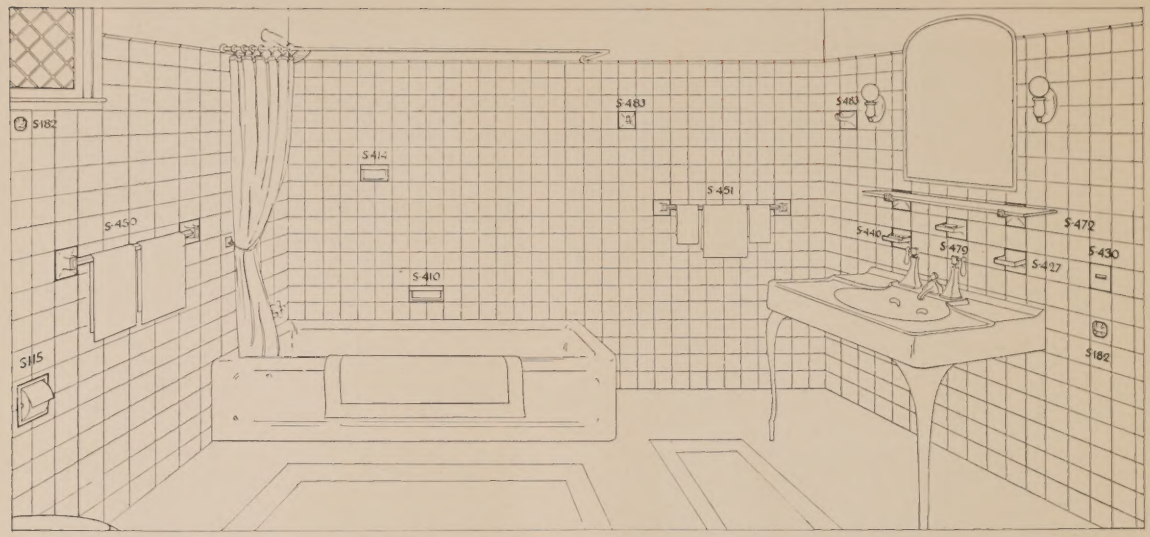
CHINA Sanoware BATH ROOM ACCESSORIES

Pottery Division Trenton·New Jersey.



TYPICAL ARRANGEMENT OF SANOWARE ACCESSORIES IN 4¼"x4¼" WALL TILE INSTALLATION

The number, size and location of accessories depends upon the plan and construction of the bathroom.

Sanoware China Accessories enjoy a wide use in bathrooms, powder rooms, kitchens, and laundries. The selection may be made by the individual, but under the recommendation of the Architect, Tile Contractors or Skilled Mechanic as to size, design and color finish desired.

Sanoware Accessories are made of a fine quality vitreous ceramic ware. They are sanitary as the name implies, and all corners and edges are rounded, with deep grooves eliminated, to assure ease in cleaning. Sanoware Accessories are non-absorbent and a damp cloth will very quickly restore the beautiful finish.

Both projecting and recessed styles of accessories are designed to correspond with the standard tile sizes—6"x6", 6"x3", 4¼"x4¼". Many pieces also have the plug in or shank back for quick installation in any type wall. The flanged or semi-recessed style is designed for installation in plaster walls, thin partitions, or for use in remodeling jobs. Attention is called to the ⅜" to ½" flange, which adequately covers a rough cut hole or rough edges when removing set tile.

When Sanoware Accessories are installed, they become an integral part of the wall, adding beauty to the decoration and utility in their use.

Gloss white and black glazed accessories are stocked for prompt delivery. Sanoware Accessories can also be furnished in any shade or color to harmonize with wall materials or plumbing fixtures through our skilled decorating service. To assure a match for decorated accessories, a sample should be submitted of the color desired.

For further information on Sanoware China Accessories, consult your Architect, Tile Contractor, or Dealer, whose name is printed on this catalogue. The Pottery Division of the Trumbull Electric Mfg. Company, Trenton, N. J., U. S. A., who have manufactured this complete line of accessories since 1925, will also gladly give any information desired.

SEE INSIDE PAGES FOR COMPLETE DESCRIPTION AND CATALOGUE NUMBERS.
